Introduction

Irish Wire is a long established family run business in Limerick City with a history tracing back to 1935.

The rich history of the company begins with Irish Wire as a manufacturer of wire and nails and one of the major employers in the city. Now, the company is a leading importer of building products and employs over 35 people. We are one of the premier distributors of fasteners, fixings, fencing, timber sheet material and related products to the building and allied trades nationwide.

Our experienced staff will offer you a quality service and our team of sales representatives are available to meet with you to discuss your individual requirements.

Our Mission is to implement a long-term relationship with our customers based on quality of product and service at the most competitive prices, and to maintain the highest levels of professionalism, integrity, honesty and fairness in our relationship with our employees, suppliers and customers.

All our brands and suppliers work to the highest EU standards and certifications and we carry product insurance.

IWP operates a nationwide delivery service utilising our own fleet and third party couriers to ensure that all orders are dispatched as promptly as possible.

We trust that you will find our catalogue interesting and would encourage you also to visit our website www.irishwire.com
Please contact your dedicated representative or our internal sales team on 061-221100.

We would like to take this opportunity to thank you for your interest and anticipated custom. We look forward to helping you with the growth of your business.

IRISH WIRE PRODUCTS

SPAX® SCREWS

SPAX – with optimised point and WIROX surface.

SPAX – The screw.

Technology, features and expertise.

SPAX provides connections

Around the globe

Projects, dreams and ideas become reality with SPAX. All over the world. From the handyman at home to the professional craftsman, from creative planners and architects to industrial employees: SPAX is meeting requirements on a daily basis. There are plenty of ways in which SPAX can be used too, which are just as varied as the people who carry out the work.

SPAX has been meeting these expectations for decades, constantly setting new standards when it comes to joining technology through innovation and lack of compromise. Precisely why it has become the embodiment of the modern screw.

This product, with its characteristic green packaging, is at home anywhere in the world. It is manufactured in Germany however, and proudly represents "Made in Germany" quality. Millions of SPAX products leave the plant daily, sold in the various versions, dimensions and designs all over the world. SPAX is thus creating connections everywhere, and ones that people can rely on.

Quality taken to the next point:

Advancing all the way to the top.

SPAX is the sum of its advantages and innovative solutions:

The optimised grip ensures an even better hold, for example of coated timber products. Which saves time and money, and guarantees a flawless appearance.

The new, internationally exclusive WIROX coating from SPAX provides considerably greater corrosion protection than blue zinc coating. Not using chromium(VI) means the coating is more environmentally friendly than conventional surfaces, both during manufacture and application.

The SPAX advantages:

- T-STAR plus recess
- MULTI Head
- Ground serrations
- Optimised point
- Exclusive WIROX surface
- Exclusive YELLOX surface
- Certified proof of origin

SPAX – new label coding system

All information at a glance.

The new label coding system helps you find what you are looking for. All the relevant SPAX packaging information is clearly arranged on a big label at the front. The label also bears a complete illustration. Using the QR code, further detailed information and application instructions can be called up. All the important information at a glance: compact and clearly arranged.

SPAX – new window packaging

For product clarity and consumer protection.

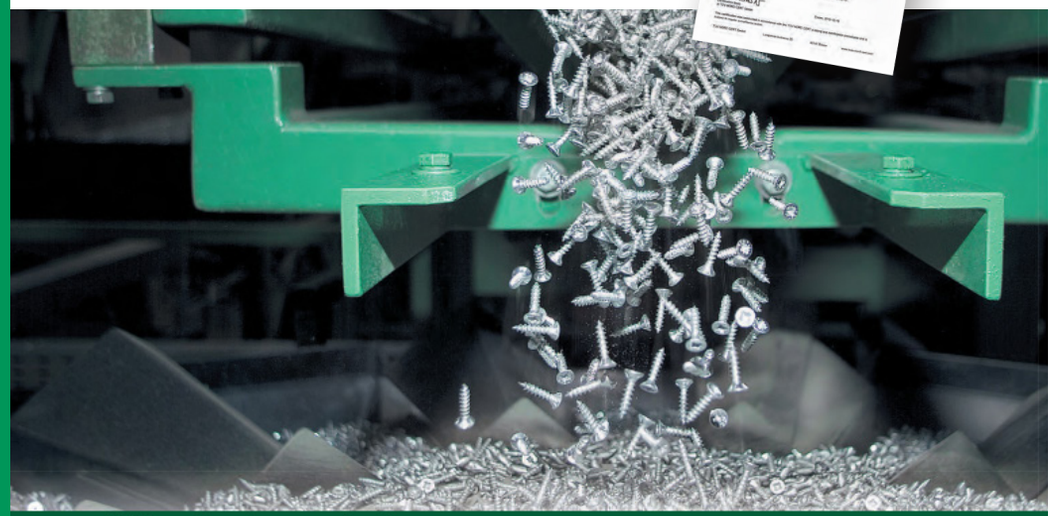
- Big window panel.
- The packaging is easy to open without any major effort
- Simple removal of the desired number of screws by pulling out the slipcase.
- Handy and stackable dimensions with clear label on the front side of the packaging.

SPAX – guaranteeing quality & innovation since 1823.

Impressive advantages:

- Certified proof of origin.
- Company head office and production location Germany.
- Offers a high degree of safety and quality for the customer.

SPAX – Made in Germany



SPAX – a brand you can trust.

We connect the world –
SPAX for a professional performance.

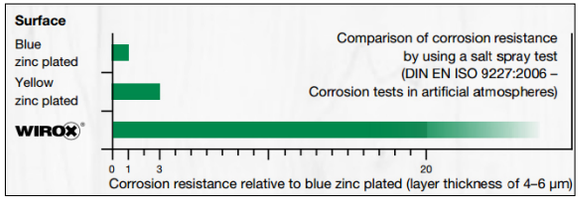
SPAX Universal Screws

WIROX corrosion protection

With new wirox surface

Whatever the weather, use WIROX for higher corrosion protection.

WIROX achieves a corrosion protection that is more than 20 times greater than that offered by blue zinc coating (layer thickness of 4–6 µm with artificial atmospheric corrosion).



Wide range of applications for true universal use

The SPAX point properties ensure a quick and easy fix. Also suitabe, for coated timber products. The quick gripping when screwing in prevents damage to the smooth wood surface for a flawless appearance.

- Optimised point for a better hold
- T-STAR Plus
- SPAX MULTI Head
- Ground serrations
- 4CUT

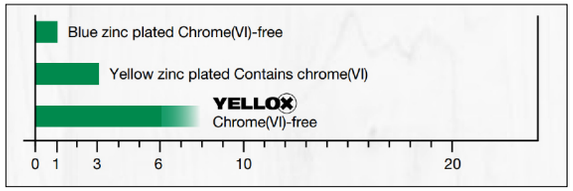
SPAX Universal Screws

YELLOX CHROM(VI) FREE

YELLOX is free of chrome(VI) and thus far more environmentally friendly than conventional surfaces, both during manufacturing and application.

YELLOX achieves corrosion protection that is more than 6 times greater than that offered by blue zinc plating at the same surface thickness (layer thickness of 4–6 µm with artificial atmospheric corrosion)



SPAX with benefits and innovative detailed solutions: Its optimised gripping effect ensures a faster grip, even in laminated wood materials, saving time and money.

SPAX Universal Torx Drive

Partial thread: firm tightening of the upper wood layer.

- Ensures a secure and solid bolting without forming any gap of two components
- Pretensioning effect works as the thread tightens securely into the lower piece of wood, while the upper piece of wood is held tightly against the lower by the screw head.

Timber Construction

SPAX Wirox Washer Head

The benchmark screw for safety, strength and economy in timber construction.

- Considerably reduced screwing-in torque and reduced splitting effect
- WIROX P3J: The surface with extremely high protection against corrosion.
- Washer head for larger head pulling-through values.
- Under licensing number Z-9.1-235. Z-9.1-511 – approved by building authorities for fastening rooftop insulation systems.

Features

- Wide overlying Washer Head
- WIROX P3J
- SPAX 4CUT Cutter
- Partial Thread
- SPAX T-STAR Plus
- SPAX 4CUT point
- SPAX Ground Serrations

SPAX Stainless Steel Screws

Rust-free stainless steel screws offer extra protection against corrosion for universal outdoor use and exposure to elements.

Features

- Made of stainless steel A2 II which gives very high corrosion protection.
- 4Cut Point allows screw-in without pre-drilling (wood-dependent) and reduces splitting as the square end displaces the fibres.
- Quick and safe fastening with less torque required, meaning more screwed connections per battery charge.
- Multi-head gives flush countersinking which mills in wood and stops on metal.

Stainless steel A2 II: high corrosion protection

SPAX MDF Screws

Ideal for secure connection with MDF materials and other thin walled wood applications.

- No splitting or bulging in MDF material when turning into thin or narrow surfaces.
- Screw geometry means no pre-drilling is required.
- Specially designed CUT point guarantees spot-on accuracy and easy driving when fastening.
- Slender, countersunk head with cutting ribs easily penetrates into material.

SPAX Pan Head Screws

Designed for use with modern materials and applications.

- Specially designed head to spread the hold down force
- Reduced deforming or damage to the material being fastened
- Optimised head and cross recess geometry ensures secure fit of the bit and makes screwing down much easier

SPAX Frame Anchor

The frame anchor with patented ground serrations. Plug-free window and door fastening.

- 6mm pre-drill diameter
- Secure, tension free fastening through gaps.
- Screw is versatile to allow frames to be connected together directly or using lugs
- Accurate position and durable fastening
- Time-saving universal application.
- No plug required

SPAX Flooring Screws

The self-tapping flooring screw with three-way action.

- Multi-head for flush self-tapping.
- Fixing thread guarantees safe and permanent connection of two pieces of wood.
- Non-threaded shank allows two materials to be pulled together tightly.
- 4CUT point means no pre-drilling is required.
- Countersunk head with milled ribs.

302545050	4.5 x 50	T20	500

Decking Screws

SPAX Stainless Steel & Wirox Decking Screws

The screw to guarantee long-lasting decking.

Unique decking screw with three way action:

- Patented ground serrations on the lower thread remove the need for pre-drilling
- Non-threaded shank allows two materials to be pulled together tightly
- Upper thread locks the deckboard securely down tight
- WIROX coating prevents rusting
- Cylindric head sits flush in the wood

360XI

- The 360Xi framing nailer is light and perfectly balanced to guarantee a great performance for multiple applications. A high performing lithium battery and weatherproof fuel cells ensures the tool will run all day, every day no matter the challenge.

- The NEW and improved version of the iconic IM350+ tool heralds the seventh generation of Paslode gas nailing technology. Benefitting from 40 years of customer insight and innovation, the tool is strong and durable, guaranteeing tool performance and reliability.

IM350+

IM65

- Paslode straight finish gas nailer
- Fires 19mm up to 63mm 16g finish nails
- Easy roller adjustable depth control
- Slim narrow body makes easy line of sight and to maneuver
- Fast charging lithium battery
- Ideal 2nd fix nailer for second fix applications

- Compact, quick and durable finish nailer with a no-mar tip to enable precise fixing.

IM65A

PPNXI

- The 1st positive placement nailer on the market provides an efficient and safe way of installing hangers, brackets and straps. The innovative locator probe accurately delivers a hardened twist nail in the precise required location.

Slate, Tile & Combi Flashing

A roof window should always be installed using the appropriate flashing. The flashing makes perfect installation easy and it ensures a 100% watertight window.

- Made from aluminium and painted in the same umber grey colours as the window.
- All weather and UV resistant tested for complete water tightness under the most rigorous conditions.
- The new RoofLITE+ flashing sits lower into the roof line improving thermal insulation and appearance.

Loft Leg

Insulate your home without compromising on storage space by using Loft Legs to create a raised loft floor above 270mm of quilt insulation for energy efficient loft storage.

- Compressed loft roll insulation can compromise thermal performance and reduce the energy efficiency of your home
- Loft Leg raises the height of a storage deck by 175mm on top of ceiling joists, to prevent compression of loft roll insulation, maintaining U values.
- Loft Leg is strong, lightweight and easy to install
- Loft Legs are designed for domestic use only and are not intended for use as a flooring substrate or surface in a permanent living space

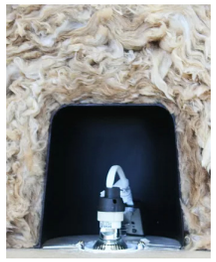
CODE	DESCRIPTION	HEIGHT	BOX QTY
149001750	Loft Leg	175 cm	12
149001755	Loft Leg XL (New Builds)	300 cm	12

Loft Lid

The Loft Lid creates a protective barrier or cover over downlights to prevent over heating and house fires. The design ensures loft insulation does not directly contact downlights and that there is sufficient ventilation around the light for heat dissipation.

- Maintains continous, energy efficient loft insulation
- Eliminates heat loss and air leakage into loft space
- Easy to install

CODE	SIZE	BOX QTY
149001760	150cm x 150cm x 209cm	30



Loft Light

Instantly illuminates your loft without wiring with an ultra-bright, battery powered LED light equivalent to a 32 Watt bulb with a battery life of up to 4 years.

- Requires no electrical wiring and can be screwed directly to any timber element in the Loft
- Includes a 2m long pull string, reflective strip and screws for convenient installation and operation
- 3 x D Cell batteries required
- Tested with a 50W downlight
- CE certified, RoHs and WEEE compliant

CODE: 149001770

Loft Bulb

Adjustable 3 panel LED Loft Bulb. Individual LED panels adjust by up to 90 degrees to illuminate hard to reach areas.

CODE: 149001765

- Adjustable 3 Panel LED Bulb
- Ultra-bright Daylight White (6500 Kelvin)
- Fits in a standard B22 Bayoney Fitting
- 4000 Lumens (Equivalent to 8 x 40W Incandescent Bulbs)
- UKCA, CE certified, RoHs and WEEE compliant

Loft Ledge

The Loft Ledge is an easy and convenient storage solution that maximises the potential storage space in your trussed roof. The kit contains 2 brackets, 4 screws and chipboard.

- Length 550mm
- Thickness 50mm
- Width 530mm
- Coverage 0.10M²
- Can support weights of up to 12kg
- Strong, lightweight and easy to install
- Designed to fit all modern trusses, and has features to allow for variations in truss design and spacing

CODE: 149001773

Metal Loft Surround Rail

Surrounds the attic stairs opening at 1 metre high. Offers extra security and safety when entering and exiting the attic.

- Adjustable width from 500mm - 750mm

CODE: 148000100

Metal Loft Balance/Grab Rail

Simple but effective balance rail that gives support when entering and exiting the attic.

- 22mm steel tubing
- Easily fitted

CODE: 148000110

DOLLE Calgary Spiral Stairs

Cost effective, modern looking spiral stair which ensures a stylish and safe climb.

- Available in white, grey and black.
- New elegant and solid spiral staircase to add beauty to your home, office or apartment.
- The staircase kit includes all the materials you need to install a staircase using common household tools.
- Can be installed clockwise or anti-clockwise and at adjustable heights by adding or removing staircase threads.
- Continuous aluminium core handrail and solid tubing are provided in either soft white or grey finish.
- The step and landings threads are made of solid beech featuring a high scuff resistant varnish.

COLOURS	White, Grey & Black
THREADS	11 + Platform

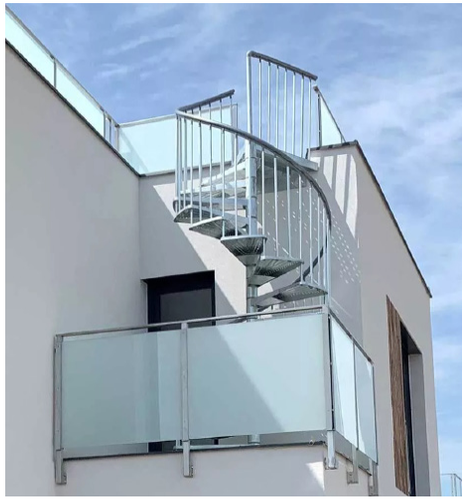
DOLLE Toronto Spiral Stairs

The Dolle Toronto spiral staircase meets all the requirements for design, appearance and functionality of a modern-day exterior staircase. Designed for convenience, from the balcony to the garden occupying the smallest of space!

The treads are made of hot-dip galvanized perforated sheet steel and are very durable easy to maintain and clean. The perforation on the top tread is slip-resistant and ensures effective drainage of water, for safe access. It comes with a continuous flexible handrail. The banister with round bars is hot-dip galvanized and finished with a rounded grey plastic handrail (PE).



CODE: 1480036750

- 125cm diameter
- 13+1 treads
- floor to floor height 287-329cm
- structure made from steel, hot galvanised according to EN ISO 1461:2009
- flexible handrail made from PVC
- takes up very little room below
- suitable for indoor and outdoor use
- weather-resistant
- easy to install
- no maintenance
- max. total load 1000kg, max. stair point load 200kg

Breathable Felts

Cromar Vent 3 Classic, Vent 3 and Vent 3 Pro are triple layered fabric, high performance breather membranes.

- 3 layer spun-bonded membrane
- BBA certified
- Clean and easy to use
- Excellent nail tear resistance
- Cold & warm roof application
- UV stable for up to 3 months
- Designed for use in a fully supported or unsupported tiled, slated or metal roof system.
- High vapour permeability
- Excellent tensile/tear strength
- High wind uplift resistance
- No gusting wind noise
- Equally suitable whether draped unsupported over rafters or laid directly over insulation.

Torch-On Bitumen Felt

Mineral Torch On Felt

Designed for installation as the top layer in two layer roofing sytems on buildings and constructions, for water-proofing of engineering structures. Can be used on new construction or repair. Material is produced by two-sided placing of modified bitumen binder. The slate is used as top side protection from ultra-violet exposure of bitumen binder. Torch on application onto the prepared surface.

Cromar Pro GRP

Advanced Glass Fibre Roofing System.

GRP stands for Glass Reinforced Polyester, also known as Glass Fibre. Cold-applied on site, Pro GRP gives a seamless and flexible weatherproof finish that resists water, heat and frost. If properly maintained, it will last as long as the building stands!

No Joints. No Seams. No Leaks.

- Cold Applied - no heat required
- Easy to Form - easily forms around complex situations
- Very Durable - resists heavy foot traffic
- Non-Slip Walkways - can be incorporated
- Class Leading Roofing Solution - far exceeds traditional methods
- Virtually Maintenance Free - for very long periods of time
- Impact Resistant - due to its ultra hard finish
- Fire Retardant
- Highly Economical Solution

VoltHub

Introducing VoltHub, a world first solution to charging lithium-ion (Li-ion) batteries safely. Its an all-in-one, indoor and outdoor use, IP55 rated unit that constantly and proactively keeps fire risks at bay, and dramatically reduces the consequences of a battery fire breakout.

Equipped with forced ventilation, a thermostatic heater, early smoke and gas detection, and a humidity sensor, the unit can detect early signs of fire. The automatic and localised fire suppression system significantly reduces risks, especially when the unit is situated centrally on a site, containing any fire and preventing its spread.

VoltHub VH16-240 battery charging 16 locker station, 240V version with UK type G sockets.

- Power cut-off when the internal temperature reaches 60 or more
- Forced ventilation to keep air flowing through the VoltHub
- Thermostatic heater keeps the temperature at optimum levels
- Isolator switch for power to the VoltHub
- The fire suppression and alert systems will still operate without mains power
- Visual and audible alarm when there is a fire
- Fire suppression system for responding to li-ion battery fires
- GSM phone and text alert when there is a fire
- Early warning detection
- Humidity sensor

CODE	DESCRIPTION	WEIGHT	EXTERNAL DIMENSIONS (MM)
VH16-240	VoltHub	334kg	1770 x 750 x 1820

PipeStor

Keep your pipe, conduit, and other lengths of material up to 6 metres long safe with PipeStor PS6. Perfect for sites, with castors that make the unit easily mobile and a 5-lever deadlock operation that keeps the unit secure. Constructed from steel with bolt-together sections, you can rely on PS6 to keep its contents secure. Opt for a padlock to secure sections together, or extend the unit to facilitate even longer lengths of material if needed.

More Products

RubbleTruck

CODE: 125519090

The multi-purpose Rubble Truck features an in-built tipping feature, ideal for handling waste and rubble, a huge 400 litre capacity scoop, extra strength crane lift eyes and solid rubber wheels.

CuttingStation

CODE: 125519130

The ever-popular Armorgard CuttingStation is a neat, mobile workstation that eliminates the need for a separate cutting room and is essential for safely cutting lengths, such as conduit, timber, cable tray and pipe.

Turntable Truck

CODE: 125519095

Turntable Truck features large, puncture proof solid rubber wheels, a raised heavy duty deck for good ground clearance and easy loading and a precision steering mechanism for easy manoeuvring. 1000kg Loading Capacity.

TuffCage

CODE: 125519400

Constructed from galvanized heavy duty steel, this robust high security cage is suitable for storing gas cylinders as well as tools and equipment. Fast and easy to erect and collapse, its space-saving one-piece design folds down to just 180mm in seconds – and with no detachable parts to lose!

Flexicart

CODE: 125519015

FlexiKart is a safe, multi-purpose folding pallet skate. With a 750kg load capacity, this sturdy trolley is ideal for moving materials & storing them off the ground. Versatile for tonne bags, bundles, and pallets. Featuring 4 round folding arms, for universal use with scaffold clamps, and four swivel castors (2 braked & 2 direction locked).

6" Castor Wheels

CODE: 125517005

These robust 6" castors with a weight loading of 135kg per wheel are easy to fit with the quick fit fixing kit, using the pre-drilled holes and castor plates. An easy add-on for many armorgard products with forklift skids. Box of 4 each.

SURFACE PROTECTION

IRISH WIRE PRODUCTS

Trimaco Cling Cover

Cling Cover is a plastic film roll that will cling to almost any surface. This premium film is treated with a unique formula that not only attracts overspray, but reduces paint flaking as well.

- Clings and protects materials
- Grips to walls and surfaces for overspray protection
- Attracts paint overspray and dust
- Ideal for painting, sanding and remodelling jobs

CODE	SIZE
128500678	9' x 400'

Trimaco Eliminator Drop Sheet

This premium drop cloth is on the higher end of surface protection, and offers 225% more slip-resistance and 20% more drapability compared to a traditional 10oz canvas drop sheet.

The Eliminator offers the ultimate leak-proof protection that stays put where you place it, making it great for hard surfaces and stairs. For best results, use the coated side down to prevent stain and paint spills from hitting the surface you're protecting. The professional-grade, crack-resistant butyl coating works well in both hot and cold temperatures, never sticking or cracking, which means you can rely on it in any season. Orange Stitching Along Outside Seams for Easy Slip-Resistant Identification.

QUICKLOADER

QUICKLOADER

Retractable

The perfect tiedown for your every need.

Quickloader Retractable is a patented and award-winning ratchet tie-down. The aim of Quickloader is to offer the best and easiest tie-down solution in the world, manufactured to meet the highest quality standards.

Features
- Unique, patented retractable tie-down
- Faster, cleaner and easier to use than traditional tiedowns
- Reduces time spent on loading and unloading
- Avoid "spaghetti" and dangerous loose webbing
- Ensure safe transportation of loads
- D-rings for more versatility
- Opening wing for emergencies
- Complies with EN-standard requirements

QUICKLOADER

Straps

A stretchable strap for all your small securing needs.

Quickloader Strap is an awarded, patented and completely new and unique solution for all your small securing needs at home and on the road. The strap has no metallic parts which means no scratches, damages or injuries. It doesn't crack or harden and it is adaptable. Quickloader Strap is also much more than just a securing strap.

Features
- Secure and scratch free cargo securing
- No metal parts, no injuries
- No over tightening risks
- Perfect flexibility
- Endlessly linkable together
- Unlimited versatility and length
- Adapts easily for carrying

Wire Fencing - SMOR Stiff Knot / Tension Mesh

- Due to it's high-tensile steel core the fence reduces the chance of the fence "wrapping around" your horses should they impact it.
- Very close vertical wire spacing and horizontal wire spacing minimises the chances of a hoof becoming entangled.
- Springy texture provides safety in the event of an animal colliding with the fence.

Barb Wire

Gripple Plus

Wire joiners for the patching and tensioning of all types and sizes of wire fencing.

- Join and tension in one
- Faster than tying and knotting wires
- Saves time and money in labour
- High load holding
- High grade ceramic roller for optimum corrosion resistance
- Adjustable and can be re-tensioned year-after-year

CODE	DESCRIPTION	DETAILS	WIRE GAUGE (G)	QTY/ PACK
402410014	Gripple Plus - Small	1.40mm - 2.20mm, 300kg working load	17 - 13	20

CenFlex Flexible Fence

The CenFlex rail features Centaur's signature polymer coating, so it will never split or rot, providing a huge advantage in protecting the animals from accident. The flexing technology draws from the full strength of the rail, making it able to support up to 4,000 pounds of pressure at any given point.

- Simple one-piece "belt loop" line bracket system.
- CenFlex installs faster than wood or PVC.
- Will never splinter, rust or rot.
- Almost no maintenance required.
- No snapping or sagging rails.
- Each rail is installed in a continuous length allowing impact to be absorbed by the entire length of the fence // Helps reduce broken fencing and injury to animals
- Easily combined with other Centaur fencing products
- Three 12.5 gauge galvanized high tensile steel wires embedded in a polymer coating
- Over 4,200 lbs in break strength (weight of a mid-size SUV)
- Ideal for moderate fence budgets.
- Warranty: 20 year limited manufacturer warranty covers all manufacturer defects including chipping and peeling.

CODE	DESCRIPTION	LENGTH

402700762	5" CenFlex Black	100m

Easi-Fix Corner Bracket

Great for situations where you need to keep the railing on the inside of the post, allows the flexi-rail to run continuously around corners and curves.

Works well with round, square, steel, or timber posts. Suited to 120mm wide railing.

CODE: 402700718

Easi-Fix Tensioning Spooler 5"

This tensioning spooler can be used to tension up to 100M of 5" flex-railing. The tensioner will be a permanent fixture of the fence and may be used anytime to re-

CODE: 402700716

Easi-Fix Termination Bracket

Used to attach 5" flex-railing to an end or corner post.

Works well with round, square, steel, or timber posts. Suited to 120mm wide railing.

CODE: 402700717

One-Way Barrel Tensioner

Centaur's low profile tensioners mount unobtrusively to end or line posts, preserving the traditional rail appearance.

- Designed to terminate and tension 5" rail around corners and straight lengths up to 660 feet (for every major directional change, deduct 100 feet).
- Needs to be installed on a 6 to 8 inch wood termination post.
- For Centaur® and CenFlex® fence systems only.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

Available in Black (Code: 402700773) & White (Hotrail) (Code: 402700810)

Two-Way Barrel Tensioner

Centaur's low profile tensioners mount unobtrusively to end or line posts, preserving the traditional rail appearance.

- Ideal for splicing long runs of 5" rail and tensioning around corners and straight lengths up to 660 feet in each direction for a total combined length of 1,320 feet (for every major directional change, deduct 100 feet).
- Install on a 6 to 8 inch wood termination/ end post.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

Available in Black (Code: 402700775) & White (Hotrail) (Code: 402700815)

CenFlex Line Bracket

The CenFlex® one-piece bracket is specially designed for the CenFlex® (non-electric) fence system.

- Simple one-piece "belt loop" design allows the fence rail to move freely between the line bracket and wood fence post
- Promotes easy tension adjustment and flexibility upon impact.
- HTP® coated steel core for added strength and durability.

Available in Black (Code: 402700765) & White (Hotrail) (Code: 402700805)

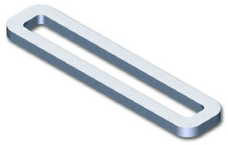
Sure-Hook Termination Bracket

Anchors the end of the 5" rail to the wood termination post.

- No wire stripping or special tools needed.
- Needs to be installed on a 6 to 8 inch wood termination/end, or gate post.
- For Centaur® and CenFlex® fence systems only.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

Available in Black (Code: 402700768) & White (Hotrail) (Code: 402700820)

Termination Loop



Anchors the end of the 5" rail to the wood termination post.

- No wire stripping or special tools needed.
- This wrap-around anchor method is ideal for reducing the possibility of brace post twisting.
- Needs to be installed on a 6 to 8 inch wood termination/end, or gate post.
- For Centaur® and CenFlex® fence systems only.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

CODE: 402700780

Diagonal Brace Plates

Designed to connect the brace and the post, reinforcing the strength of the brace and keeping your fences strong and durable.

- Makes a secure connection between brace and post without notching
- Allows for solid, long-lasting braces
- Install with galvanised 3.5" ring shank nails or 2.5" screws.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

CODE: 402700785

Sure-Hook Splice Buckle

Splices two pieces of 5" rail together to create a longer piece of rail.

- No wire stripping or special tools needed.
- Quick and easy way to splice a 5" rail.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

Available in Black (Code: 402700770) & White (Hotrail) (Code: 402700823)

Spinning Jenny

The Spinning Jenny is perfect for those searching for ease and convenience when loading rolls of fence.

- Fits all Centaur products and high Tensile wire.
- Controls over-spin with an adjustable brake
- Strong, four leg base gives great stability
- Adjustable arms provide ease and convenience when loading rail
- Strong steel frame
- 100cm x 100cm x 30cm (tall)
- 16kg
- Made from steel

CODE: 401016830

Equiwire - Electric Safety Coated High Tensile Wire

White/Black Lightning® is a permanent electric high tensile wire fence system. The 12.5 gauge high tensile steel wire is embedded in a polymer safety coating that promotes visibility and helps prevent slicing and cutting injuries.

- White/Black Lightning® contains three carbon veins for optimum conductivity. This three point shock design provides 360 degrees of charge promoting ultimate fence respect.
- Embedded carbon veins for optimum conductivity.
- Safety coated to help prevent injury.
- Sure-Fit® T-Post Safety Sleeve compatible.
- Color coating options to promote visibility.

CODE	DESCRIPTION	LENGTH

Hotrail Rail - White

Electric Hot Rail combines the high tensile safety of Centaur®with the added security of an electric fence. Hot Rail® contains a conductive bead that eliminates the need for a separate hot wire installation.

- Integrated electric bead.
- Deluxe HTP® Polymer thickness for extra durability.
- Innovative two-piece "belt-loop" line bracket system for optimal attachment.
- No Boards To Replace, No Cribbing
- 4,200 lbs of strength per rail
- Withstands -40°C to 93.3°C
- Available in 100m or 200m rolls
- 30 Year Limited Warranty

IRISH WIRE PRODUCTS

K-Post

K-Post is a rapid setting, fine concrete mix. 20KG

CODE: 555003299

- Used for the erection of all types of fencing posts, gate posts, line posts, rotary lines, etc.
- One bag is sufficient to support a post in a hole measuring 250x250x350mm

Instructions for Use:

1. Dig hole of suitable size and depth for post to be erected (depending on size the post should have between 25% and 33% in the ground).
2. Place post in centre of hole.
3. Half fill hole with clean water (2.5 litres).
4. Pour the post mix evenly around the post.
5. Add remaining water to dampen any dry post-mix (total water per bag 5 litres).
6. Lightly compact to remove any trapped air.
7. Plumb the post and prop for approx 15 minutes or until post is stable.
8. Allow concrete to set prior to commencing any further work.
9. Fill remainder of hole with soil, sod or pebble.

Wheelbarrows & Handcarts

The TUFX PX120 Wheelbarrow is built to meet the demanding needs of professional contractors.

Featuring a tough poly tray with exceptional impact resistance, it is designed to handle tough jobs daily while remaining easy to maintain and completely resistant to corrosion.

With its large capacity, ergonomic handling, and high strength-to-weight ratio construction, the PX120 stands out as one of the strongest and most reliable wheelbarrows in the industry.

CODE	TUFX CODE	DESCRIPTION
125530010	PX120	Pro Contractor Wheelbarrow

The TUFX TX600L is a premium hand truck crafted for professional and commercial use, designed to excel in demanding work environments.

Its loop handle design offers unparalleled control and flexibility, allowing users to operate the truck with one hand, leaving the other free for multitasking.

With its robust construction and innovative features, the TX600L is the perfect solution for moving sacks, bags, boxes, and oversized loads efficiently and safely.

CODE	TUFX CODE	DESCRIPTION
125530130	TX600L	Loop Handle Handcart

The TUFX TX800TM combines innovative design with heavy-duty functionality, making it the ideal choice for transporting large, bulky loads with ease and precision.

This dual-handle truck features a folding plate extension rack for added versatility, allowing users to carry oversized items effortlessly.

Designed for tough, demanding environments, the TX800TM ensures stability, control, and reliable performance.

Outdoor Tiles - Rubber & Artificial Grass

Aslon RUBBER

Aslon rubber tiles are produced from recycled rubber granulate and are therefore 100% recyclable after use. The tiles are easy to lay and maintenance-friendly. The drainage structure ensures that the top layer of the tile dries quickly. Rubber tiles are particularly suitable for playground equipment due to their fall-breaking properties.

Artificial grass tiles are rubber tiles to which a top layer of artificial grass has been applied. The artificial grass is pressed onto the rubber tiles in such a way that the tile remains porous. The advantage of artificial grass tiles is that compared to standard rubber tiles, they have a softer and more luxurious top

- Porosity 920 mm (rubber) and 250 mm (grass) per hour in accordance with EN 12616
- Lightweight
- Sound absorbing
- Quick and easy to fit
- Fall protection
- 100% recyclable
- Critical fall height values – Head Injury Criterion (HIC) - 0.90 metre for 25mm thickness
- Underside of tile is studded to enable water to drain away

CODE	COLOUR	SIZE (MM)	QTY / PLT
111500120	Black Tile	500x500x25	36
111500125	Grey Tile	500x500x25	36
111500130	Sand Tile	500x500x25	36
111500135	Grass Tile	500x500x25	36

Aslon rubber tiles are available with dowel joints. On two edges of each tile there are four holes. Four plastic pins are inserted into these holes allowing the tiles to be joined together. This gives Increased stability, provides Anti-theft & allows reassembly & repositioning.

Tile Display Box & Top Card available for pallet quantities.

Aslon Rubber Anti-Vibration Mat | Under-Appliance Shock Absorbing Mat

Aslon RUBBER

Rubber anti-vibration mats are designed to act as a buffer between a vibration source and the surface underneath it. These mats can be used in various situations, ranging from household appliances (like washing machines), home gyms, workshops and more!

An anti-vibration mat ensures the stability of the machine/ fitness equipment, and prevents it from shifting from place. It also has noise absorbing properties.

- 60cm x 60cm x 6mm
- Made from high-quality crumb rubber
- Shock-Absorbing
- Easy to Install
- Sustainable
- Flexible
- Prevents Shifting
- Reduces Noise

Mixing Buckets

The Red Gorilla® Mixing Bucket is built to handle the toughest jobs, whether you're mixing plaster, mortar, or clearing rubble.

With strong reinforced sides and easy-grip handles, it's both tough and practical. Made from 100% non-absorbent, recyclable material, this weather-resistant and frost-proof bucket is perfect for outdoor use all year round.

CODE	DESCRIPTION
410007620	Gorilla 30L Mixing Bucket Yellow
410007610	Gorilla 50L Mixing Bucket Yellow

Brooms

The Gorilla Broom® with Hard Bristle Head is designed to make your life easier.

Built with unique features such as an integrated scraper blade, making removing 'stuck bits' even easier as well as an anti-clog channel which cuts down flying dust for a clean sweeping action, all the wile avoiding clumping.

The broom even performs well in the wet, as the non-porous polymer head and bristles soak up 0% fluid.

SPRAYERS

FEATURED BRANDS

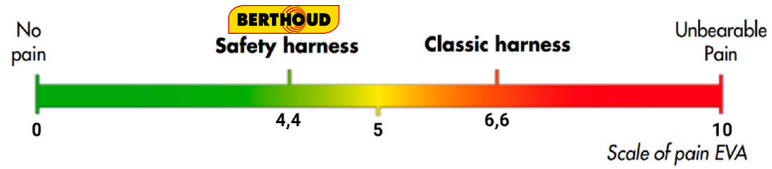
BERTHOUD

COOPER PEGLER
SPRAYING TECHNOLOGY

BERTHOUD

The Berthoud Vermorel range is a unique concept in spraying due to its' patented contoured backframe, fitted adjustable foam padded straps and waist belt assembly making it the most ergonomic and comfortable sprayer on the market.

- Reduce negative impacts on the spine and pelvis
- Significant reduction in arduousness caused by the sprayer



Vermorel 2000 Pro Comfort

For large gardens, orchards, market gardens, greenhouses, etc. For intensive use (treatment, weeding).

- Ergonomic back frame
- Reversible lever
- Weight empty: 5.97 kg / Full: 26.2kg
- High-performance diaphragm pump with curved piston
- Pressure relief valve, adjustable from 0 to 5 bars
- Professional 'PROFILE'-type lance handle
- Composite telescopic lance 60 cm / 120 cm
- Multi-purpose adjustable nozzle holder
- Very good and quick pressure gain with easy pumping

GUARANTEE 5 years GUARANTEE

16 litres

CODE: 122102022

Reinforced back support
- No direct contact with the tank

Adjustable straps with reinforced foam and tensioners
- Adjusts to the user's morphology
- Protects the user's shoulders

Chest strap
- Ensures sprayer stability
- Alleviates lateral tension

Adjustable waist strap and reinforced back
- Sprayer weight distribution : 70% on the hips / 30% on the shoulders
- Ensures sprayer stability

Vermorel 1800

For large gardens, orchards, trees, shrubs, etc.

- Ergonomic back frame with adjustable double shoulder straps
- Weight empty: 5.1 kg / Full: 25.3kg
- Reversible left/right pump lever with 2 positions
- High-performance diaphragm pump with curved piston
- Professional 'PROFILE' - type lance handle (comfort and accuracy)
- 60 cm composite lance with high mechanical and chemical resistance
- Multi-purpose adjustable nozzle holder

COOPER PEGLER
SPRAYING TECHNOLOGY

Cooper Pegler CP3 Evolution

The 20L capacity of this knapsack sprayer provides greater work autonomy and improved comfort thanks to its two carrying handles. Its unique diaphragm pump system ensures the longevity of the sprayer as well as an adequate and precise protection for your crops.

- Robust and lightweight design
- Adjustable re-inforced lever for left / right hand operation
- Reinforced hose for greater pressure resistance
- Lid with separate seal and air vent for secure locking
- Wide filler hole to prevent overflow when filling
- UV stabilised polypropylene tank for a durable yet lightweight sprayer.
- Brass components for excellent durability
- Unique diaphragm pump very resistant towards water impurities
- High resistance GRP (Glassfibre Reinforced Plastic) lance adaptable for all types of nozzles
- Pressure control valve with fixed settings for spraying herbicides / insecticides and fungicides
- Double filtration system to clean impurities before nozzle outlet
- All working parts mounted inside the tank to prevent damage
- Few moving parts and none are exposed to friction, thus ensuring resistance to dirt in the spray liquid

20 litres

Cooper Pegler CP15 Evolution

The CP15 Evolution can now be equipped with a revolutionary new ergonomic carrying system with ultra-comfortable shoulder straps and waist belt to work better and longer. It is also fitted with two handles on the tank to for easy handling.

- Carrying handle
- Pressure control valve with fixed settings for spraying herbicides/insecticides and fungicides
- Unique diaphragm pump, very resistant
- Adjustable re-inforced lever for left / right hand operation
- UV stabilised polypropylene tank for a durable yet lightweight sprayer
- All working parts mounted inside the tank to prevent damage
- Nozzles included: Yellow hollow cone and green anvil. Nozzle on multi-nozzle adapter
- Wide filler hole to prevent overflow when filling
- Low mesh strainer to filter out dirt, supplementary filter in trigger
- High resistance GRP (Glassfibre Reinforced Plastic) lance and trigger
- High resistance glassfibre reinforced plastic trigger with filter
