Introduction

Irish Wire is a long established family run business in Limerick City with a history tracing back to 1935.

The rich history of the company begins with Irish Wire as a manufacturer of wire and nails and one of the major employers in the city. Now, the company is a leading importer of building products and employs over 35 people. We are one of the premier distributors of fasteners, fixings, fencing, timber sheet material and related products to the building and allied trades nationwide.

Our experienced staff will offer you a quality service and our team of sales representatives are available to meet with you to discuss your individual requirements.

Our Mission is to implement a long-term relationship with our customers based on quality of product and service at the most competitive prices, and to maintain the highest levels of professionalism, integrity, honesty and fairness in our relationship with our employees, suppliers and customers.

All our brands and suppliers work to the highest EU standards and certifications and we carry product insurance.

IWP operates a nationwide delivery service utilising our own fleet and third party couriers to ensure that all orders are dispatched as promptly as possible.

We trust that you will find our catalogue interesting and would encourage you also to visit our website www.irishwire.com Please contact your dedicated representative or our internal sales team on 061-221100.

We would like to take this opportunity to thank you for your interest and anticipated custom. We look forward to helping you with the growth of your business.

SPAX®
SCREWS

SPAX – with optimised point and WIROX surface.

SPAX – The screw.
Technology, features and expertise.

SPAX provides connections

Around the globe

Projects, dreams and ideas become reality with SPAX. All over the world. From the handyman at home to the professional craftsman, from creative planners and architects to industrial employees: SPAX is meeting requirements on a daily basis. There are plenty of ways in which SPAX can be used too, which are just as varied as the people who carry out the work.

SPAX has been meeting these expectations for decades, constantly setting new standards when it comes to joining technology through innovation and lack of compromise. Precisely why it has become the embodiment of the modern screw.

This product, with its characteristic green packaging, is at home anywhere in the world. It is manufactured in Germany however, and proudly represents "Made in Germany" quality. Millions of SPAX products leave the plant daily, sold in the various versions, dimensions and designs all over the world. SPAX is thus creating connections everywhere, and ones that people can rely on.

Quality taken to the next point:

Advancing all the way to the top.

SPAX is the sum of its advantages and innovative solutions:

The optimised grip ensures an even better hold, for example of coated timber products. Which saves time and money, and guarantees a flawless appearance.

The new, internationally exclusive WIROX coating from SPAX provides considerably greater corrosion protection than blue zinc coating. Not using chromium(VI) means the coating is more environmentally friendly than conventional surfaces, both during manufacture and application.

The SPAX advantages:

- T-STAR plus recess
- MULTI Head
- Ground serrations
- Optimised point
- Exclusive WIROX surface
- Exclusive YELLOX surface
- Certified proof of origin

6   7

SPAX – new label coding system

All information at a glance.

The new label coding system helps you find what you are looking for. All the relevant SPAX packaging information is clearly arranged on a big label at the front. The label also bears a complete illustration. Using the QR code, further detailed information and application instructions can be called up. All the important information at a glance: compact and clearly arranged.

SPAX – new window packaging

For product clarity and consumer protection.

- Big window panel.
- The packaging is easy to open without any major effort
- Simple removal of the desired number of screws by pulling out the slipcase.
- Handy and stackable dimensions with clear label on the front side of the packaging.

SPAX – guaranteeing quality & innovation since 1823.

Impressive advantages:

- Certified proof of origin.
- Company head office and production location Germany.
- Offers a high degree of safety and quality for the customer.

SPAX – Made in Germany
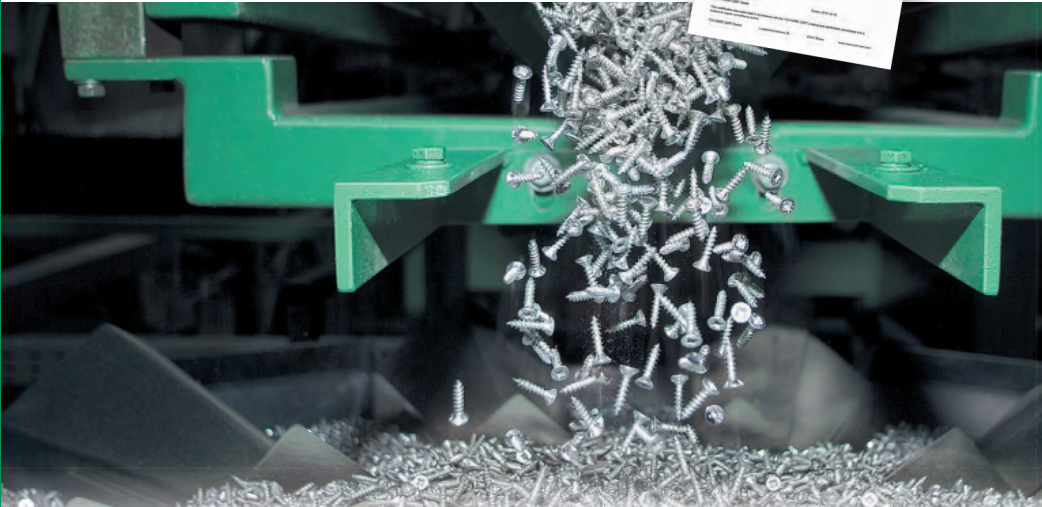

SPAX – a brand you can trust.

We connect the world –
SPAX for a professional performance.

SPAX Universal Screws

With new wirox surface

Whatever the weather, use WIROX for higher corrosion protection.

WIROX achieves a corrosion protection that is more than 20 times greater than that offered by blue zinc coating (layer thickness of 4–6 µm with artificial atmospheric corrosion).

Surface
Blue zinc plated
Yellow zinc plated
WIROX

Comparison of corrosion resistance by using a salt spray test (DIN EN ISO 9227:2006 – Corrosion tests in artificial atmospheres)

Corrosion resistance relative to blue zinc plated (layer thickness of 4–6 µm)

Wide range of applications for true universal use

The SPAX point properties ensure a quick and easy fix. Also suitabe, for coated timber products. The quick gripping when screwing in prevents damage to the smooth wood surface for a flawless appearance.

- Optimised point for a better hold
- T-STAR Plus
- SPAX MULTI Head
- Ground serrations
- 4CUT

SPAX Universal Torx Drive

Partial thread: firm tightening of the upper wood layer.

- Ensures a secure and solid bolting without forming any gap of two components
- Pretensioning effect works as the thread tightens securely into the lower piece of wood, while the upper piece of wood is held tightly against the lower by the screw head.

Timber Construction

SPAX Wirox Washer Head

The benchmark screw for safety, strength and economy in timber construction.

- Considerably reduced screwing-in torque and reduced splitting effect
- WIROX P3J: The surface with extremely high protection against corrosion.
- Washer head for larger head pulling-through values.
- Under licensing number Z-9.1-235. Z-9.1-511 – approved by building authorities for fastening rooftop insulation systems.

Features
- Wide overlying Washer Head
- WIROX P3J
- SPAX 4CUT Cutter
- Partial Thread
- SPAX T-STAR Plus
- SPAX 4CUT point
- SPAX Ground Serrations

SPAX Stainless Steel Screws

Rust-free stainless steel screws offer extra protection against corrosion for univeral outdoor use and exposrure to elements.

Features
- Made of stainless steel A2 II which gives very high corrosion protection.
- 4Cut Point allows screw-in without pre-drilling (wood-dependent) and reduces splitting as the square end displaces the fibres.
- Quick and safe fastening with less torque required, meaning more screwed connections per battery charge.
- Multi-head gives flush countersinking which mills in wood and stops on metal.

EDELSTAHL Rost frei INOX STAINLESS STEEL

Stainless steel A2 II: high corrosion protection

SPAX MDF Screws

Ideal for secure connection with MDF materials and other thin walled wood applications.

- No splitting or bulging in MDF material when turning into thin or narrow surfaces.
- Screw geometry means no pre-drilling is required.
- Specially designed CUT point guarantees spot-on accuracy and easy driving when fastening.
- Slender, countersunk head with cutting ribs easily penetrates into material.

SPAX Pan Head Screws

Designed for use with modern materials and applications.

- Specially designed head to spread the hold down force
- Reduced deforming or damage to the material being fastened
- Optimised head and cross recess geometry ensures secure fit of the bit and makes screwing down much easier

Rost frei — EDELSTAHL® — INOX STAINLESS STEEL

SPAX Frame Anchor

The frame anchor with patented ground serrations. Plug-free window and door fastening.

- 6mm pre-drill diameter
- Secure, tension free fastening through gaps.
- Screw is versatile to allow frames to be connected together directly or using lugs
- Accurate position and durable fastening
- Time-saving universal application.
- No plug required

WIROX corrosion protection

SPAX Flooring Screws

The self-tapping flooring screw with three-way action.

- Multi-head for flush self-tapping.
- Fixing thread guarantees safe and permanent connection of two pieces of wood.
- Non-threaded shank allows two materials to be pulled together tightly.
- 4CUT point means no pre-drilling is required.
- Countersunk head with milled ribs.

Decking Screws

SPAX Stainless Steel & Wirox Decking Screws

The screw to guarantee long-lasting decking.

Unique decking screw with three way action:

- Patented ground serrations on the lower thread remove the need for pre-drilling
- Non-threaded shank allows two materials to be pulled together tightly
- Upper thread locks the deckboard securely down tight
- WIROX coating prevents rusting
- Cylindric head sits flush in the wood

- The 360Xi framing nailer is light and perfectly balanced to guarantee a great performance for multiple applications. A high performing lithium battery and weatherproof fuel cells ensures the tool will run all day, every day no matter the challenge.

360XI

- The NEW and improved version of the iconic IM350+ tool heralds the seventh generation of Paslode gas nailing technology. Benefitting from 40 years of customer insight and innovation, the tool is strong and durable, guaranteeing tool performance and reliability.

IM350+

- Paslode straight finish gas nailer
- Fires 19mm up to 63mm 16g finish nails
- Easy roller adjustable depth control
- Slim narrow body makes easy line of sight and to maneuver
- Fast charging lithium battery
- Ideal 2nd fix nailer for second fix applications

IM65

- Compact, quick and durable finish nailer with a no-mar tip to enable precise fixing.

IM65A

- The 1st positive placement nailer on the market provides an efficient and safe way of installing hangers, brackets and straps. The innovative locator probe accurately delivers a hardened twist nail in the precise required location.

Suspension Kits

GRIPPLE

Standard Gripple Hang Fast - Loop End

The standard Gripple Hang Fast (HF) range is used to suspend, brace, and secure any services.

- Up to 6 times faster to install than traditional hanging systems
- Supplied as a ready-to-use kit
- Improves work comfort and safety
- Reduced volume and easy handling
- Strong, versatile
- Aesthetically discreet and lightweight
- Available in 5 load rated sizes
- Certified

Trapeze No.2

Purpose-made single channel Gripple, ideal for use with strut support.

- Ideal for fast suspension of chilled beams, cable tray, etc.
- Tapered design - accommodate all slots sizes
- Discreet - fits completely inside the strut channel
- Pre-fits onto strut channel to ease working at height
- Pin allows rapid adjustment
- Load rated at 100 lbs with a 5:1 safety factor
- Supplied as a ready-to-use kit

Trapeze No.3

Purpose-made single channel Gripple, ideal for use with strut support.

- Ideal for fast suspension of strut trapeze systems for support of rectangular duct, cable basket and ladder, conduit racks, etc.
- Slots easily into strut
- Release pin allows rapid height adjustment
- Load rated at 200 lbs with a 3:1 safety factor
- Supplied as a ready-to-use kit

Universal Clamp

The new Universal Clamp is for hanging all types of pipework within mechanical and plumbing services.

- Universal - for pipe sizes 3⁄8" to 2 ½" diameter
- Up to 6 times faster than traditional methods
- Replaces more than 11 different pipe clamp sizes
- Ready to use, retractable sleeve pre-fitted to wire rope
- Improved insulation against vibration
- No tools are required for installation
- Easy site storage, reduces waste, no risk of losing screws on site
- Simplifies take-off process calculation
- Lloyd's certified

Wall Clamp

Introducing the new Gripple Wall clamp, an innovative method for securing all types of pipework securely to the wall.

- Accommodates all types of pipework and a range of pipe diameters
- Faster than traditional methods of installation
- Different orientations – Can be fitted both horizontally and vertically
- Designed to look neat with a clean professional finish
- Easy handling – Locking mechanism for easy and fast fixing
- Easy site storage – No need to stock several sizes

ROOF WINDOWS & BLINDS

FEATURED BRANDS

Electric Roof Window Opener

The electrical roof window opener makes it easy to open and close the window when it is out of reach.

- Easy and flexible operation even in out of reach places
- Equipped with "turn-around" switch, opening scope from 10 to 40 cm

- Remote control and/or wall mount switch operation
- Gray color to match all other fittings
- Strong metal casing

CODE: AMC
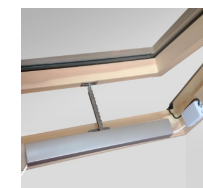

Slate, Tile & Combi Flashing

A roof window should always be installed using the appropriate flashing. The flashing makes perfect installation easy and it ensures a 100% watertight window.

- Made from aluminium and painted in the same umber grey colours as the window.
- All weather and UV resistant tested for complete water tightness under the most rigorous conditions.
- The new RoofLITE+ flashing sits lower into the roof line improving thermal insulation and appearance.

Loft Leg

Insulate your home without compromising on storage space by using Loft Legs to create a raised loft floor above 270mm of quilt insulation for energy efficient loft storage.

- Compressed loft roll insulation can compromise thermal performance and reduce the energy efficiency of your home
- Loft Leg raises the height of a storage deck by 175mm on top of ceiling joists, to prevent compression of loft roll insulation, maintaining U values.
- Loft Leg is strong, lightweight and easy to install
- Loft Legs are designed for domestic use only and are not intended for use as a flooring substrate or surface in a permanent living space

CODE	DESCRIPTION	HEIGHT	BOX QTY
149001750	Loft Leg	175 cm	12
149001755	Loft Leg XL (New Builds)	300 cm	12

Loft Lid

The Loft Lid creates a protective barrier or cover over downlights to prevent over heating and house fires. The design ensures loft insulation does not directly contact downlights and that there is sufficient ventilation around the light for heat dissipation.

- Maintains continous, energy efficient loft insulation
- Eliminates heat loss and air leakage into loft space
- Easy to install

CODE	SIZE	BOX QTY
149001760	150cm x 150cm x 209cm	30
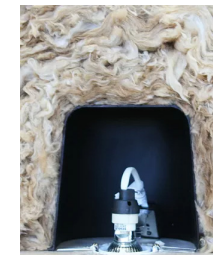

Loft Light

Instantly illuminates your loft without wiring with an ultra-bright, battery powered LED light equivalent to a 32 Watt bulb with a battery life of up to 4 years.

- Requires no electrical wiring and can be screwed directly to any timber element in the Loft
- Includes a 2m long pull string, reflective strip and screws for convenient installation and operation
- 3 x D Cell batteries required
- Tested with a 50W downlight
- CE certified, RoHs and WEEE compliant

CODE: 149001770

55
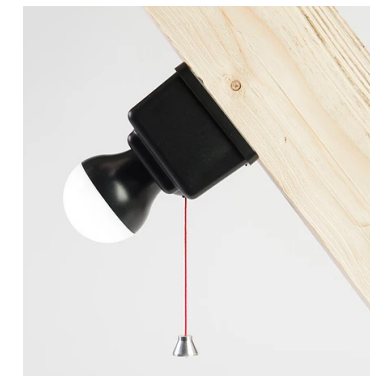

Loft Bulb

Adjustable 3 panel LED Loft Bulb. Individual LED panels adjust by up to 90 degrees to illuminate hard to reach areas.

CODE: 149001765

- Adjustable 3 Panel LED Bulb
- Ultra-bright Daylight White (6500 Kelvin)
- Fits in a standard B22 Bayoney Fitting
- 4000 Lumens (Equivalent to 8 x 40W Incandescent Bulbs)
- UKCA, CE certified, RoHs and WEEE compliant

Loft Ledge

The Loft Ledge is an easy and convenient storage solution that maximises the potential storage space in your trussed roof. The kit contains 2 brackets, 4 screws and chipboard.

- Length 550mm
- Thickness 50mm
- Width 530mm
- Coverage 0.10M^2
- Can support weights of up to 12kg
- Strong, lightweight and easy to install
- Designed to fit all modern trusses, and has features to allow for variations in truss design and spacing

CODE: 149001773

Metal Loft Surround Rail

Surrounds the attic stairs opening at 1 metre high. Offers extra security and safety when entering and exiting the attic.

- Adjustable width from 500mm - 750mm

CODE: 148000100

Metal Loft Balance/Grab Rail

Simple but effective balance rail that gives support when entering and exiting the attic.

- 22mm steel tubing
- Easily fitted

CODE: 148000110

56

DOLLE Calgary Spiral Stairs

Cost effective, modern looking spiral stair which ensures a stylish and safe climb.

- Available in white, grey and black.
- New elegant and solid spiral staircase to add beauty to your home, office or apartment.
- The staircase kit includes all the materials you need to install a staircase using common household tools.
- Can be installed clockwise or anti-clockwise and at adjustable heights by adding or removing staircase threads.
- Continuous aluminium core handrail and solid tubing are provided in either soft white or grey finish.
- The step and landings threads are made of solid beech featuring a high scuff resistant varnish.

401000599	Heavy Builders Film	52.5m^2	162

DPC (30m Roll)

Damp Proof Course (DPC) is manufactured for both domestic and industrial use within stone, brick and concrete walls for the prevention of rising damp within structures.

- Made from high quality 100% recycled polythene
- Suitable for both vertical and horizontal applications
- Embossed finished for better mortar adhesion
- Suitable to withstand a compressive load up to 2.5N/mm^2 provided no lateral load is applied
- Cost efficient, 100% reliable and environmentally friendly solution

Breathable Felts

CROMAR
Building Products

Cromar Vent 3 Classic, Vent 3 and Vent 3 Pro are triple layered fabric, high performance breather membranes.

- 3 layer spun-bonded membrane
- BBA certified
- Clean and easy to use
- Excellent nail tear resistance
- Cold & warm roof application
- UV stable for up to 3 months
- Designed for use in a fully supported or unsupported tiled, slated or metal roof system.
- High vapour permeability
- Excellent tensile/tear strength
- High wind uplift resistance
- No gusting wind noise
- Equally suitable whether draped unsupported over rafters or laid directly over insulation.

Cromar Pro GRP

CROMAR Building Products

Advanced Glass Fibre Roofing System.

GRP stands for Glass Reinforced Polyester, also known as Glass Fibre. Cold-applied on site, Pro GRP gives a seamless and flexible weatherproof finish that resists water, heat and frost. If properly maintained, it will last as long as the building stands!

No Joints. No Seams. No Leaks.

- Cold Applied - no heat required
- Easy to Form - easily forms around complex situations
- Very Durable - resists heavy foot traffic
- Non-Slip Walkways - can be incorporated
- Class Leading Roofing Solution - far exceeds traditional methods
- Virtually Maintenance Free - for very long periods of time
- Impact Resistant - due to its ultra hard finish
- Fire Retardant
- Highly Economical Solution

QUICKLOADER

Straps

A stretchable strap for all your small securing needs.

Quickloader Strap is an awarded, patented and completely new and unique solution for all your small securing needs at home and on the road. The strap has no metallic parts which means no scratches, damages or injuries. It doesn't crack or harden and it is adaptable. Quickloader Strap is also much more than just a securing strap.

Features
- Secure and scratch free cargo securing
- No metal parts, no injuries
- No over tightening risks
- Perfect flexibility
- Endlessly linkable together
- Unlimited versatility and length
- Adapts easily for carrying

More From the Quickloader Range

CODE: 125510660

Quickloader Standard Strap
Standard tie-down for securing light duty cargo. Maximum load 800kg. 4.5m length. Rubber handles. Coated S-hooks.

CODE: 125510535
125510540
125510545

Quickloader Anchors
D-Ring heavy duty tie-down anchor for securing cargo. 500kg, 2500kg & 5000kg break strength options.

CODE: 125510505

Carabin Bungee
Bungee with carabiner that ensures it will not slip off. Suitable for bikes, camping, roof racks, hand carts etc. 80cm length.

CODE: 125510620
125510625

Quickloader Advantage Hybrid
Magnetized two-piece ratchet strap featuring a longer, more ergonomic grip handle, a more reliable opening mechanism, magnets for easy storage, and attachment for easier storage of excess webbing. 1200kg & 2000kg break strength options. 35mm webbing.

CODE: 125510710
125510715

MG Strap & Ratchet
Maxx Gear tie-down to secure cargo. 5m webbing length. 500kg & 1500kg break capacity options.

CODE: 125510560

Quickloader Carry Handle Grip
Innovative professional ergonomic handle with a strong self-winding webbing. The possibilities are limitless, from combining tool boxes or other site materials into a single bundle before carrying, logs and lumber, or carrying purchases to and from your car, home to home, or fixing gear to your boat. Free a hand or double up and carry more at a time - ergonomically while reducing the risk of falling objects while carrying.

Wire Fencing - SMOR Stiff Knot / Tension Mesh

- Due to it's high-tensile steel core the fence reduces the chance of the fence "wrapping around" your horses should they impact it.
- Very close vertical wire spacing and horizontal wire spacing minimises the chances of a hoof becoming entangled.
- Springy texture provides safety in the event of an animal colliding with the fence.

Barb Wire

Gripple Plus

Wire joiners for the patching and tensioning of all types and sizes of wire fencing.

- Join and tension in one
- Faster than tying and knotting wires
- Saves time and money in labour
- High load holding
- High grade ceramic roller for optimum corrosion resistance
- Adjustable and can be re-tensioned year-after-year
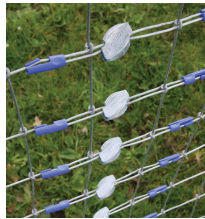

CODE	DESCRIPTION	DETAILS	WIRE GAUGE (G)	QTY/ PACK

Gripple Barbed

- Designed to join 2.50mm ½" mild steel barbed wire.
- Removes the need to knot barbed wire.
- Fitted with ceramic rollers for high corrosion resistance.
- Ideal for use with a T-Clip for end post termination.
- 150kg working load

| CODE	DETAILS	WIRE GAUGE (G)	QTY/ PACK
402410018	2.00mm - 2.50mm	12.5	10

Gripple T-Clip

- The quick and easy way to tie-off at the start or end of a fence.
- Ideal for use on all types of stock fence, especially on horse fence where space is tight.
- Also suitable for tying-off barbed wire.
- 400kg working load

- 50 x Gripples

CODE: 402410012

Contractor Starter Pack

Ideal for contractors to erect fencing.

- 1 x Contractor Tool
- 250 x Medium Gripples
- Packed in canvas bag

CODE: 402410011

Gripple Contractor Tool

- The contractor tool is strong, robust and built for contractors - producing the same tension with much less effort.
- Quick release cam to position the tool easily on the wire.
- Soft, moulded, ergonomic grips for added comfort

CODE: 402410021

Gripple Torq Tensioning Tool

- Wire tensioner tool that regulates the load applied to it, delivering consistent results and maximising the life of your wire. Ideal for wire fence tensioning and wire trellising tensioning
- Lightweight and compact
- Designed with an in-built gauge, controls the tension applied to the wire
- One tool works on all Gripple tensioners on up to 6mm diameter wire
- Ensures consistent tension every time, optimising the life of wires
- Gear driven handles provide a 6:1 mechanical advantage, allows tensioning with minimal effort

CODE: 402410009

Gripple Wire Cutters

- These custom-designed cutters are made for cutting galvanised wire and wire rope with a spring-loaded opening action.

CenFlex Flexible Fence

The CenFlex rail features Centaur's signature polymer coating, so it will never split or rot, providing a huge advantage in protecting the animals from accident. The flexing technology draws from the full strength of the rail, making it able to support up to 4,000 pounds of pressure at any given point.

- Simple one-piece "belt loop" line bracket system.
- CenFlex installs faster than wood or PVC.
- Will never splinter, rust or rot.
- Almost no maintenance required.
- Withstands expansion due to temperature changes.
- No snapping or sagging rails.
- Each rail is installed in a continuous length allowing impact to be absorbed by the entire length of the fence // Helps reduce broken fencing and injury to animals
- Easily combined with other Centaur fencing products
- Three 12.5 gauge galvanized high tensile steel wires embedded in a polymer coating
- Over 4,200 lbs in break strength (weight of a mid-size SUV)
- Ideal for moderate fence budgets.
- Warranty: 20 year limited manufacturer warranty covers all manufacturer defects including chipping and peeling.

CODE	DESCRIPTION	LENGTH
402700760	5" CenFlex Black	201m
402700762	5" CenFlex Black	100m

CenFlex Line Bracket

The CenFlex® one-piece bracket is specially designed for the CenFlex® (non-electric) fence system.

- Simple one-piece "belt loop" design allows the fence rail to move freely between the line bracket and wood fence post
- Promotes easy tension adjustment and flexibility upon impact.
- HTP® coated steel core for added strength and durability.

Available in Black (Code: 402700765) & White (Hotrail) (Code: 402700805)
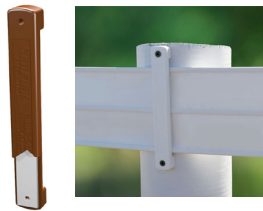

One-Way Barrel Tensioner

Centaur's low profile tensioners mount unobtrusively to end or line posts, preserving the traditional rail appearance.

- Designed to terminate and tension 5" rail around corners and straight lengths up to 660 feet (for every major directional change, deduct 100 feet).
- Needs to be installed on a 6 to 8 inch wood termination post.
- For Centaur® and CenFlex® fence systems only.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

Available in Black (Code: 402700773) & White (Hotrail) (Code: 402700810)

Two-Way Barrel Tensioner

Centaur's low profile tensioners mount unobtrusively to end or line posts, preserving the traditional rail appearance.

- Ideal for splicing long runs of 5" rail and tensioning around corners and straight lengths up to 660 feet in each direction for a total combined length of 1,320 feet (for every major directional change, deduct 100 feet).
- Install on a 6 to 8 inch wood termination/ end post.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

Available in Black (Code: 402700775) & White (Hotrail) (Code: 402700815)

Sure-Hook Termination Bracket

Anchors the end of the 5" rail to the wood termination post.

- No wire stripping or special tools needed.
- Needs to be installed on a 6 to 8 inch wood termination/end, or gate post.
- For Centaur® and CenFlex® fence systems only.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

Available in Black (Code: 402700768) & White (Hotrail) (Code: 402700820)

Termination Loop

Anchors the end of the 5" rail to the wood termination post.

- No wire stripping or special tools needed.
- This wrap-around anchor method is ideal for reducing the possibility of brace post twisting.
- Needs to be installed on a 6 to 8 inch wood termination/end, or gate post.
- For Centaur® and CenFlex® fence systems only.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.
CODE: 402700780

Diagonal Brace Plates

Designed to connect the brace and the post, reinforcing the strength of the brace and keeping your fences strong and durable.

- Makes a secure connection between brace and post without notching
- Allows for solid, long-lasting braces
- Install with galvanised 3.5" ring shank nails or 2.5" screws.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

CODE: 402700785

Sure-Hook Splice Buckle

Splices two pieces of 5" rail together to create a longer piece of rail.

- No wire stripping or special tools needed.
- Quick and easy way to splice a 5" rail.
- All Centaur's Sure-Fit® Accessories are produced to the highest quality standards, assuring you a fence installation that will stand the test of time.

Available in Black (Code: 402700770) & White (Hotrail) (Code: 402700823)

Spinning Jenny

The Spinning Jenny is perfect for those searching for ease and convenience when loading rolls of fence.

- Fits all Centaur products and high Tensile wire.
- Controls over-spin with an adjustable brake
- Strong, four leg base gives great stability
- Adjustable arms provide ease and convenience when loading rail
- Strong steel frame
- 100cm x 100cm x 30cm (tall)
- 16kg
- Made from steel

CODE: 401016830

Equiwire - Electric Safety Coated High Tensile Wire

White/Black Lightning® is a permanent electric high tensile wire fence system. The 12.5 gauge high tensile steel wire is embedded in a polymer safety coating that promotes visibility and helps prevent slicing and cutting injuries.

- White/Black Lightning® contains three carbon veins for optimum conductivity. This three point shock design provides 360 degrees of charge promoting ultimate fence respect.
- Embedded carbon veins for optimum conductivity.

- Safety coated to help prevent injury.
- Sure-Fit® T-Post Safety Sleeve compatible.
- Color coating options to promote visibility.

Hotrail Rail - White

Electric Hot Rail combines the high tensile safety of Centaur®with the added security of an electric fence. Hot Rail® contains a conductive bead that eliminates the need for a separate hot wire installation.

- Integrated electric bead.
- Deluxe HTP® Polymer thickness for extra durability.
- Innovative two-piece "belt-loop" line bracket system for optimal attachment.
- No Boards To Replace, No Cribbing

- 4,200 lbs of strength per rail
- Withstands -40°C to 93.3°C
- Available in 100m or 200m rolls
- 30 Year Limited Warranty

K-Post

K-Post is a rapid setting, fine concrete mix. 20KG   CODE: 555003299

- Used for the erection of all types of fencing posts, gate posts, line posts, rotary lines, etc.
- One bag is sufficient to support a post in a hole measuring 250x250x350mm

Instructions for Use:

1. Dig hole of suitable size and depth for post to be erected (depending on size the post should have between 25% and 33% in the ground).
2. Place post in centre of hole.
3. Half fill hole with clean water (2.5 litres).
4. Pour the post mix evenly around the post.
5. Add remaining water to dampen any dry post-mix (total water per bag 5 litres).
6. Lightly compact to remove any trapped air.
7. Plumb the post and prop for approx 15 minutes or until post is stable.
8. Allow concrete to set prior to commencing any further work.
9. Fill remainder of hole with soil, sod or pebble.
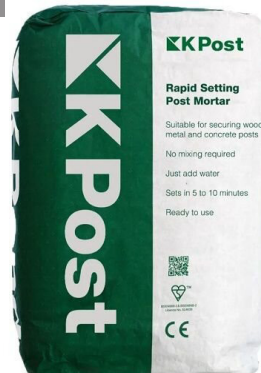

V -Mesh Panels & Posts

Ideal for playgrounds, schools, playing pitches, factories, gardens, airports, etc. Posts and panels are green PVC coated. Plastic cap for post included.

Outdoor Tiles - Rubber

Aslon RUBBER

Aslon rubber tiles are produced from recycled rubber granulate and are therefore 100% recyclable after use. The tiles are easy to lay and maintenance-friendly. The drainage structure ensures that the top layer of the tile dries quickly. Rubber tiles are particularly suitable for playground equipment due to their fall-breaking properties.

- Porosity (920 mm per hour in accordance with EN 12616)
- Lightweight
- Sound absorbing
- Quick and easy to fit
- Fall protection

- 100% recyclable
- Critical fall height values – Head Injury Criterion (HIC) - 0.90 metre for 25mm thickness

CODE	COLOUR	SIZE (MM)	QTY / PLT
111500120	Black Tile	500x500x25	36
111500125	Grey Tile	500x500x25	36
111500130	Sand Tile	500x500x25	36

Outdoor Tiles - Artificial Grass

Artificial grass tiles are rubber tiles to which a top layer of artificial grass has been applied. The artificial grass is pressed onto the rubber tiles in such a way that the tile remains porous. The advantage of artificial grass tiles is that compared to standard rubber tiles, they have a softer and more luxurious top layer. The drainage structure ensures that water is channelled away quickly leaving the artificial grass to dry out in a short time.

- High quality top layer of artificial grass
- Lightweight; 18 kg per m2
- Porosity of 250 mm per hour
- Can be placed directly on roofing (except PVC roofing)
- Fall protection

- Underside of tile is studded to enable water to drain away
- Handy to use compared to four-metre-wide artificial grass roll
- Five year guarantee on wear resistance
- Critical fall height values – Head Injury Criterion (HIC) - 0.80 metre for 25mm thickness

CODE	COLOUR	SIZE (MM)	QTY / PLT
111500135	Green Tile	500x500x25	36

Aslon rubber tiles are available with dowel joints. On two edges of each tile there are four holes. Four plastic pins are inserted into these holes allowing the tiles to be joined together. This gives Increased stability, provides Anti-theft & allows reassembly & repositioning.

Tile Display Box & Top Card available for pallet quantities.
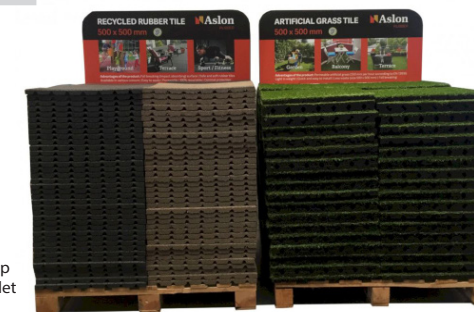

Composite Decking

A high-performance, eco-friendly wood alternative, that offers the warmth and appeal of natural hardwood without the time and expense of regular maintenance.

- smooth woodgrain effect on one side, narrow ribbing on the other
- weather resistant water and slip resistant
- easy to clean
- easy to install
- hidden fixing system
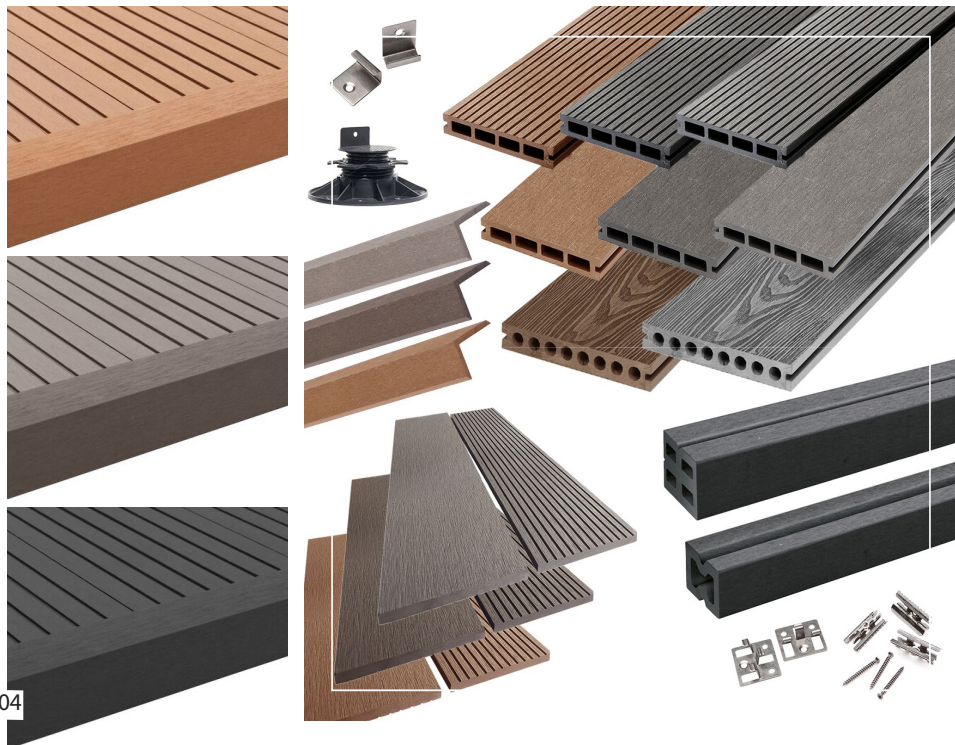

Railings

Available in Bow Top, Spear Top, Ring Top. Matching rail posts and entrance gates also available!

- high grade 6063 aluminium alloy or alloy structural grade steel
- pickets: extra heavy 19mm aluminium or steel tube
- cross rails: 38 x 25 x 1.6mm
- full welded connections on all connections and joints
- 100% recyclable
- 10 year guaranteed
- powder coated finish
- black "sand grain" effect powder coating
- 20 year manufacturer warranty

Fat Balls

Fat Balls fall into the category of fatty feeds, and consist of a mixture of cereals, beef tallow, feed lime, seeds and nuts.

As with other fat products, this is the favourite type of food for many wild birds the whole year through.

AGRI MASTER NUTRITION

FEATURED BRANDS

Premium Complimentary Mineral Feeds

Agri-Master nutrition molassed mineral blocks supply minerals, vitamins, trace elements and antioxidants to balance any dietary deficiencies in the herd.

Pre-Calver

Pre-Calver Molassed Mineral Block is a complementary mineral feedingstuff recommended for feeding to pre-calving dairy and suckler cows up to calving time.

Pre-Calver Molassed Licks contain high levels of trace elements which will help to improve the trace element status of the herd.

Hi-Mag

Hi-Mag Molassed Mineral Block is a complementary mineral feedingstuff recommended for feeding to Suckler Cows and Lactating Cows during high risk times for grass tetany (hypomagnesemic tetany).

Hi-Mag Molassed Mineral Licks contain high levels of trace elements which will help to improve the trace element status of the herd.

Calf Beef

Calf Beef Molassed Mineral Block is a complementary mineral feedingstuff recommended for feeding to calves, weanlings, beef cattle animals and replacement heifers up to 3 months before calving.

Calf Beef Molassed Mineral Licks contain high levels of trace elements which will help to improve the trace element status of the herd.
