

**SPAX**<sup>®</sup>  
Die Schraube

**WIROX**<sup>®</sup>  
corrosion protection

SPAX – with optimised point and WIROX surface.

**SPAX – The screw.**  
Technology, features and expertise.

SPAX – with ground serrations and optimised point.

## **Optimised point:** for an even better hold.

The SPAX point properties ensure an even quicker fix, also for coated timber products. The quick gripping when screwing in prevents damage to the smooth wood surface – for a flawless appearance.

The quick and easy processing saves time and money. The typical SPAX ground serrations also contribute to an easy and secure bolting.

## **The advantages to an optimised point:**

- Optimised point for a better, faster hold
- Also for coated timber products
- Quick gripping prevents damage to smooth surfaces

## **Proven advantages to SPAX:**

- *T-STAR plus*
- *MULTI Head*
- Ground serrations
- *4CUT*

SPAX – with new WIROX surface.

**The advantages and properties of the internationally exclusive SPAX WIROX surface at a glance:**

- WIROX achieves a **corrosion protection that is more than 20 times greater** than that offered by blue zinc coating (layer thickness of 4–6  $\mu\text{m}$  with artificial atmospheric corrosion)
- WIROX is particularly suited to service class 2 in accordance with Eurocode 5 for open constructions without direct exposure to weather, such as car ports or pergolas
- WIROX is free of chrome(VI) and thus far more **environmentally-friendly** than conventional surfaces, both during manufacturing and usage
- WIROX is **abrasion-proof** and more **mechanically resistant**
- WIROX is complying with category 5 for **extremely high resistance** according to DIN EN 1670

SPAX – with new window packaging.

### The advantages of the new packaging:

- Big window panel
- The packaging is easy to open without any major effort
- Simple removal of the desired number of screws by pulling out the slipcase
- Handy and stackable dimensions with clear label on the front side of the packaging

SPAX – with new label coding system.

## The new label coding system: all information at a glance.

The new **label coding system** helps you find what you are looking for. All the relevant SPAX packaging information is clearly arranged on a big label at the front. The label also bears a complete illustration. Using the QR code, further detailed information and application instructions can be called up. All the important information at a glance: **compact and clearly arranged.**

### Structure and meaning of the new SPAX label in detail:

- 1 Manufacturer's trade mark and product name
- 2 Recess incl. size designation and colour coding of the bit size
- 3 TÜV Nord logo
- 4 Specifications on the surface (e.g. WIROX)
- 5 Image of the product, corrosion protection information or material number for stainless steel, article number and colour coding
- 6 Number of pieces
- 7 Thread diameter and length specification
- 8 Approvals
- 9 EAN code (according to Annex DoP)
- 10 CE marking and ETA number
- 11 QR code for further product information

SPAX – guaranteeing quality and innovation since 1823.

### Impressive advantages:

- With certified proof of origin
- Company head office and production location Germany
- Offers a high degree of safety, quality and continuity for the customer
